Re: ANNUAL COLLEGE CREDIT PLUS NOTICE

The Board of Education recognizes the value to students and to the District for students to participate in programs offered by accredited colleges and universities in Ohio. Through the College Credit Plus program, eligible students can take a course and earn high school and college credit that appears on both their high school and college transcripts.

There is no cost to students to participate in the College Credit Plus program when the student is enrolled in a public college or university and earning both high school and college credit. Students choosing to enroll in a participating private college or university might incur costs. Additionally, economically disadvantaged students who choose to attend a nonpublic college or university can do so at no cost. To participate in the College Credit Plus program, the student must meet his or her college or university of choice's standards for admission and course placement. **The student and his or her parents must also participate in an information session provided by the district prior to participating. There will be a virtual and an in-person opportunity for this meeting requirement**
